#### **SECTION 7-1 INTENT**

**7-101.** The “CS” Countryside District is intended to reduce the number of nonconforming properties, both undeveloped and developed, which would otherwise result from the application of these regulations to newly-annexed property. The CS district will provide a rural residential lifestyle where residents have adequate open space by which to preserve that character even after the area becomes fully developed in accordance with this Article. To that end the district is particularly suited for cluster subdivisions developed in accordance with the City’s subdivision regulations.

The district is also intended to allow for limited future single-family residential development without encouraging the premature loss of open space or the loss of land used for agricultural purposes.

**7-102.** Following the effective date of these Regulations, to be eligible for zoning classification as Countryside, land should be considered on a section (640 acres) basis. Only sections of land which: (1) were comprised of 16 or more tracts, parcels or lots, and each conforming to the relevant zoning regulations and subdivision regulations in effect prior to the effective date of these Regulations and (2) have a minimum of three miles of public roads through or abutting the section, may be zoned Countryside. Land which does not itself meet the above criteria, but which is surrounded by sections of land zoned Countryside, may also be zoned Countryside.

**7-103.** New lots shall be created within the Countryside District only if constituting 20 or more acres, as provided in Section 7-5.

#### **SECTION 7-2 PERMITTED USES**
